Horn of Africa to Yemen crossing	82	74
Sahara Desert crossing	67	65
Turkey-Europe land route	32	0
Darien Gap	31	30
Western Balkans	23	31
Eastern Mediterranean	12	100
Total	2098	6623

THE BRIEF STORY BEHIND THE DATA AND VISUALIZATION

The quest for survival and the greater pursuit of greener pasture drive people to engage in herculean and life-threatening ways to leaving the shores of their motherland.

Reports daily emerge showing the records of casualties or outright deaths of people trying crossover into Europe or other continents like the Americas and Australia between ***January to October 2021***.

The Analysis and Visualization you are about to see was extracted from the World Migration Database hosted by MISSING MIGRANTS PROJECT at <https://missingmigrants.iom.int/downloads>.

The visualization has ***total deaths, survivals at different regions of the world***. There is a slicer to select each to reach to view clearly.

The next one shows the number of ***Males, Females and Children involved whose genders where unclassified, the estimated number of missing people, cause of death and migration route***.
